

The background of the advertisement is a soft-focus photograph of a jewelry display. In the foreground, a dark brown leather cord bracelet is laid out, featuring a series of colorful glass beads. The beads include a large orange one with white dots, a blue and white patterned one, a tan one with purple floral designs, a translucent amber one, a dark blue one with red and white floral patterns, and a green one with white swirls. Interspersed among these are smaller silver-toned metal spacers with intricate cut-out patterns. In the background, there are blurred green leaves and small, dried, light-colored flowers, creating a natural, autumnal feel. The overall lighting is warm and soft.

GLASS JEWELRY

Fall & Winter Collection

From day one we have delighted in creating beautiful colors to brighten each day. Our glass artists love trying new designs and colors to give you that special piece that puts a gleam in your eye. They take great pride in the high quality and durability of each glass bead. From their hands to your heart...enjoy!

GEORGE W. FENTON

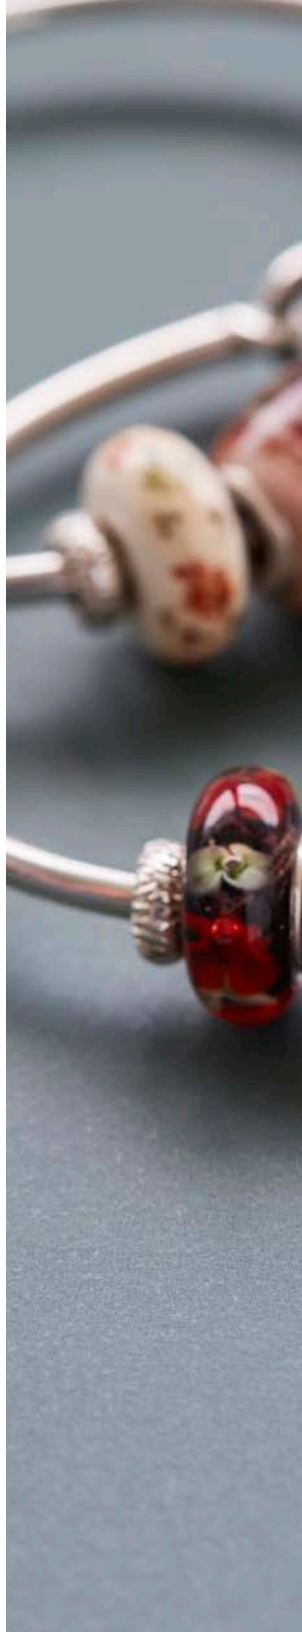

Fenton makes the finest glass colors in the world for our expressive creations. During our 109 years of glassmaking experience we have developed amazing glass colors and treatments that are now translated into sparkling, artistic jewels.

Young Frank L. Fenton started the company in 1905 and immediately began developing glass techniques that were beautifully unexpected. His vision led us from hand painted designs, iridescent carnival glass, mosaic, and Vasa Murrhina infused with flecks of gold to hundreds of lustrous colors! We continue his vision today. Just look inside to see our array of rich reds and pinks that step beyond color normally found in glass beads, to our exciting combinations of blues, greens and purples.

A close-up photograph of a jewelry piece from the 'Woodland Tales Collection'. The piece features several colorful, oval-shaped beads with intricate designs, including floral and abstract patterns in shades of orange, blue, green, and purple. The beads are strung on a silver-toned chain. The background is a soft-focus image of dried flowers and greenery, creating a natural, woodland atmosphere. The text 'Woodland Tales Collection' is centered over the image in a white, serif font.

Our Products

Handcrafted in America since 1905

In an age of mass production, Fenton remains committed to honoring the tradition of expressive, handmade creations. Each Made in America Fenton glass bead bears the signature of handcraftsmanship; those slight variations that convey distinction, character and charm. The handcrafted Fenton glass bead collection includes many of Fenton's unique glass colors and historic treatments. We are the only beadmaker creating hand decorated beads using high-fired ceramic glazes, giving our beads unmatched design flexibility and strong durability.

Bead Care

Treat your glass beads with care, as you would any fine jewelry. To clean the glass, simply wipe the bead with a damp cloth. To polish the silver core, gently rub the side of the bead back and forth on a polishing cloth. Do not expose beads to acidic materials, such as lemon juice or vinegar, or any household cleaners. Never immerse your beads in a liquid jewelry cleaner or clean glass beads in a jewelry tumbler.
